 **STRATCO**

## NINELINE™ Pleat

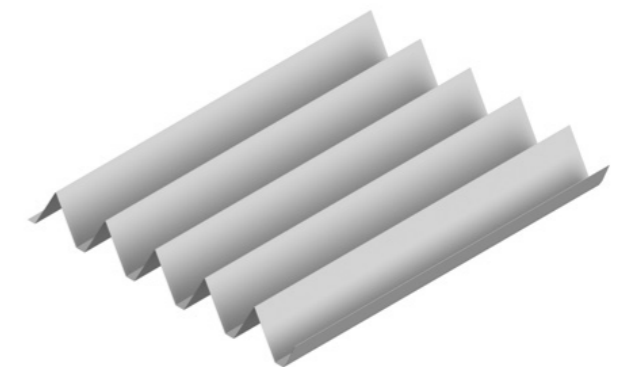

### Be captivated by the interplay of light and shadow with this reimagined interpretation of the classic corrugated profile.

Expand your access to different profile shapes with Stratco. The striking triangulated form features a 90mm rib height, emphasising sharpness of shadows and finish, particularly when applied en masse.

The minimal pan width reduces direct contact with the substrate, resulting in less thermal transfer and improved condensation management when compared to traditional metal profiles.

#### Features at a glance:

- Rib Height: 90mm
- Coverage: 590mm
- BMT: 0.55mm
- Fixing Method: Pierced Fix
- Maximum Length: 6.0m
- Minimum Length: 0.3m
- Available in Colorbond® Standard, Matt Finish, ULTRA, Metallic and Stratco Bronze.
